

## YAP IN ZYPERN

Hello Members of the Club 41, Round Table and the other YAP's. Please let me report about our beautiful trip to Cyprus. At first a big thank you to everybody who helped us to realise the trip.

Our journey starts in Larnaca, where we met Kyriakos, the president from Club 41 and our tour guide.

On Monday we traveled in the mountains to Kalopanagiotis, this was one of my favourite places off this week. We saw the biggest monastery from Cyprus and we had a little hike with a beautiful view. In the evening and the next day our new host, Nikos, told us a lot about the village and the history. We saw a little church and the river was full of clean, drinkable water.

After that we had to leave Kalopanagiotis and traveled to Paphos, there we saw the sea for the first time. On this day we spend a lot of time on the

beach and had enough time for us yappers ourselves. In the evening we had a big dinner with a lot of other members from Club 41 and Round table, everyone was pretty kind and it was amazing to meet them all.

It was a great experience to meet so many people with a lot of interesting stories, that what YAP is about! I enjoyed it a lot, because it is really good to make new experiences and meet new friends.

We often had this kind of dinner, with a lot of people around. In Limasoll we met the children from the members of Club 41, it was very great to learn about the different cultures and daily life. We saw the harbour from Limasoll at first at night and the next day in the daylight. It was a good time to relax a little and have a good time with the other Yaps.

I wish I could write everything what we saw but I have to summarize it a little bit.

So I will tell you about the best parts of the trip. At first it was really nice to meet so many different people from other countries and that you're feeling like a big family with the Members of Club 41 and Round Table. The other aspect is that the members told us a lot about the culture from Cyprus, or about the little old villages. It was very interesting to learn it next from the inhabitants and brought us the history and culture closer than an official tour guide.

Thank you for hosting us and the great experiences we made. I'm very happy that I traveled with the Young-Ambassadors-Program and I can recommend it to everybody.

**Best wishes**

**Luisa Kurz, from Germany.**
